# EXPERIMENT 5: REPORTS, DASHBOARDS, AND UI BUILDER

## Aim

To develop reports and dashboards in Zoho Creator for the Gym Membership Management application by creating different report types and configuring visualizations for effective membership data analysis and presentation.

## Procedure

1. Log in to Zoho Creator and open the existing Gym Membership System application.

2. Open the Reports section and create a List View named **All_Members_List** to display member names, contact numbers, membership plans, and membership types.

3. Create a Spreadsheet View named **Members_Spreadsheet** to display membership records in a grid and manage selected fields such as attendance and renewal details, if available.

4. Create a Kanban View named **Membership_Status_Kanban** to organize members according to their membership status.

5. Create a Calendar View named **Membership_Start_Calendar** to display membership start dates using the Preferred Start Date field.

6. Create a Map View named **Member_Residential_Map** to visualize members' residential locations using the Residential Address field, if supported.

7. Create a Timeline View named **Enrollment_Activity_Timeline** to display enrollment records according to their submission dates.

8. Create a Pivot Table named **Plan_By_MembershipType_Pivot** to analyze membership counts by Membership Plan and Membership Type.

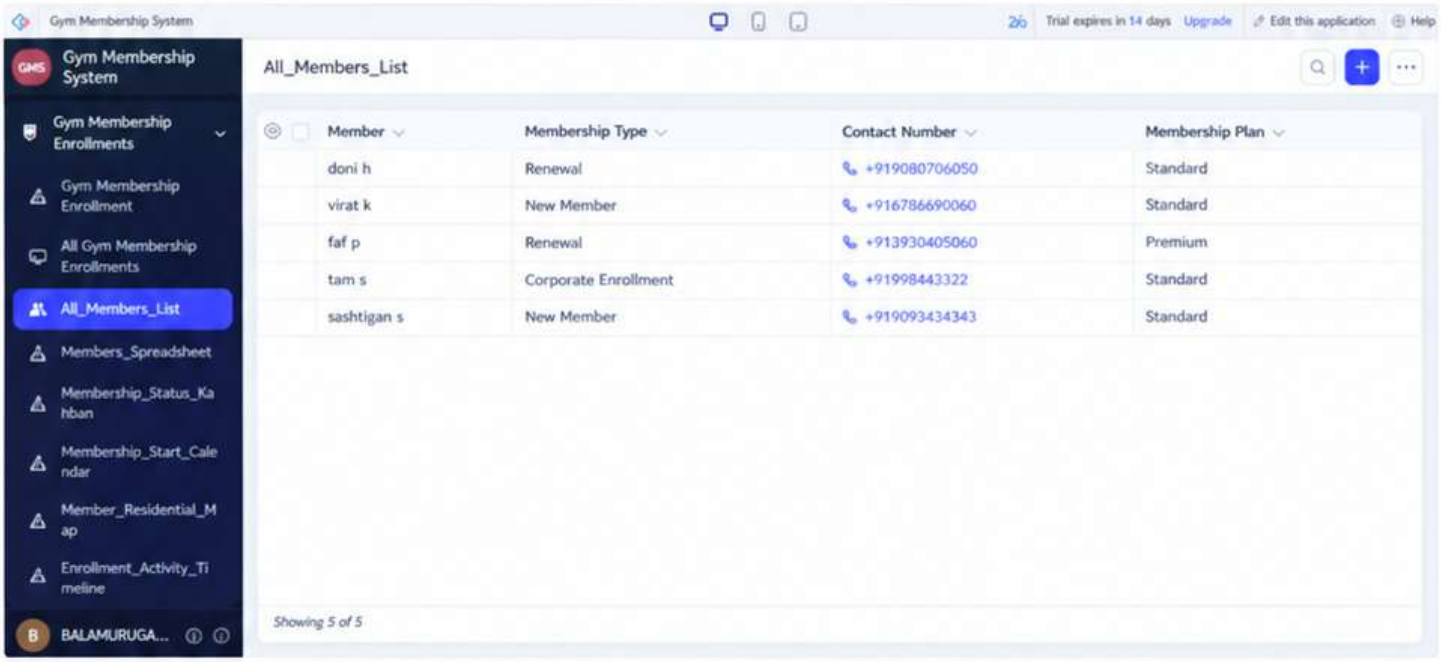

9. Create a Chart View named **Plan_Popularity_Chart** using a bar chart to compare the number of members across membership plans.

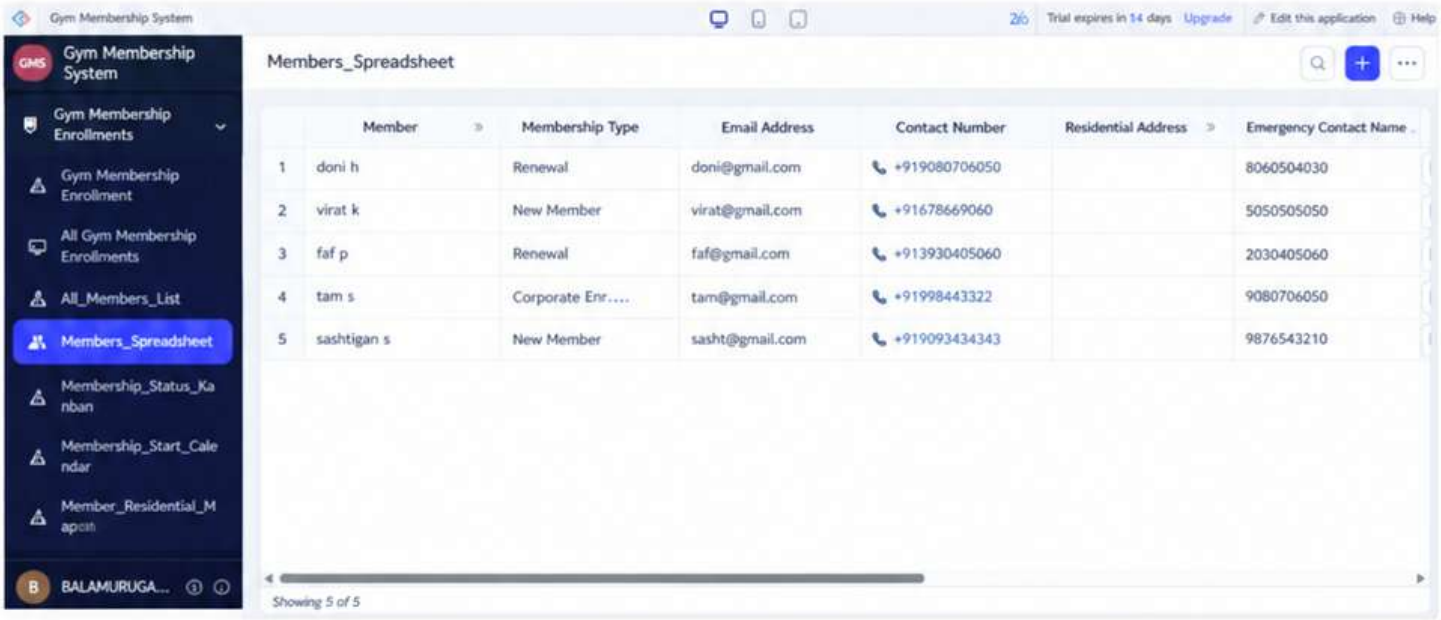

10. Create a Summary View named **Trainer_Wise_Summary** to summarize member counts by assigned trainer, if the trainer field is available.

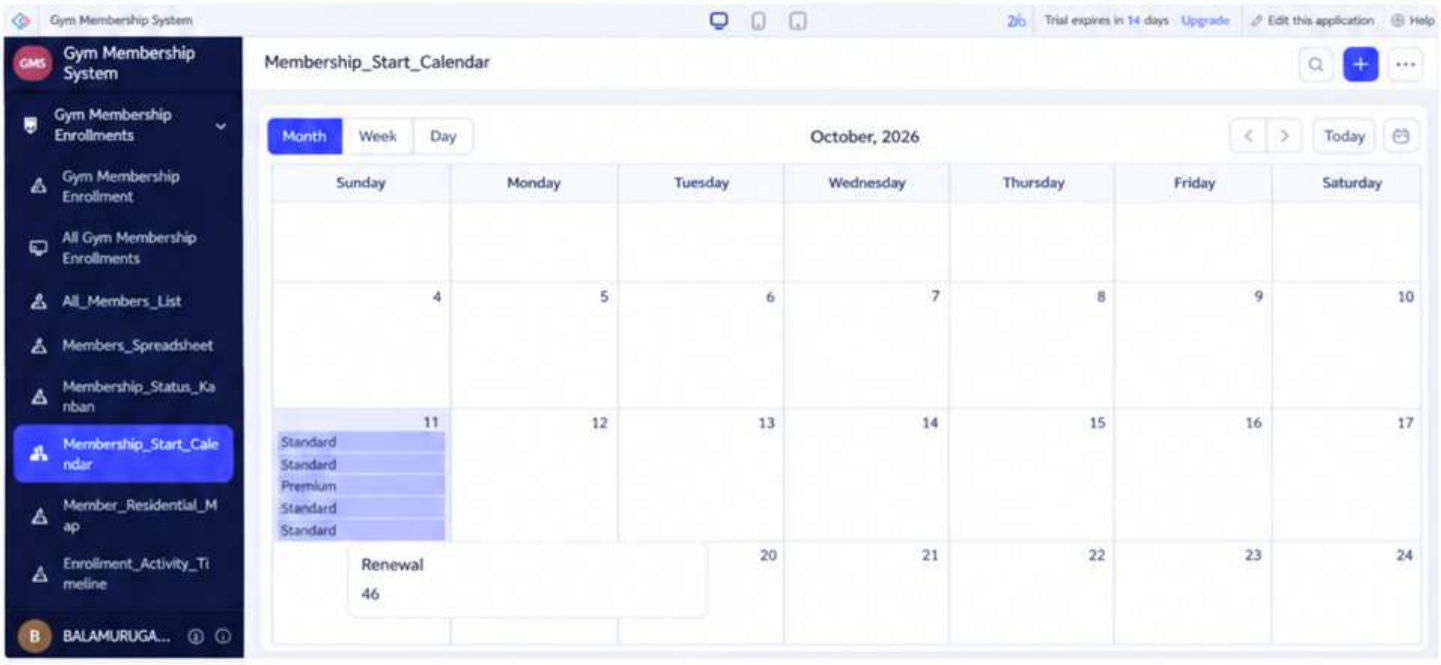

11. Configure the display fields, sorting, grouping, and other settings for each report based on the available fields in the form.

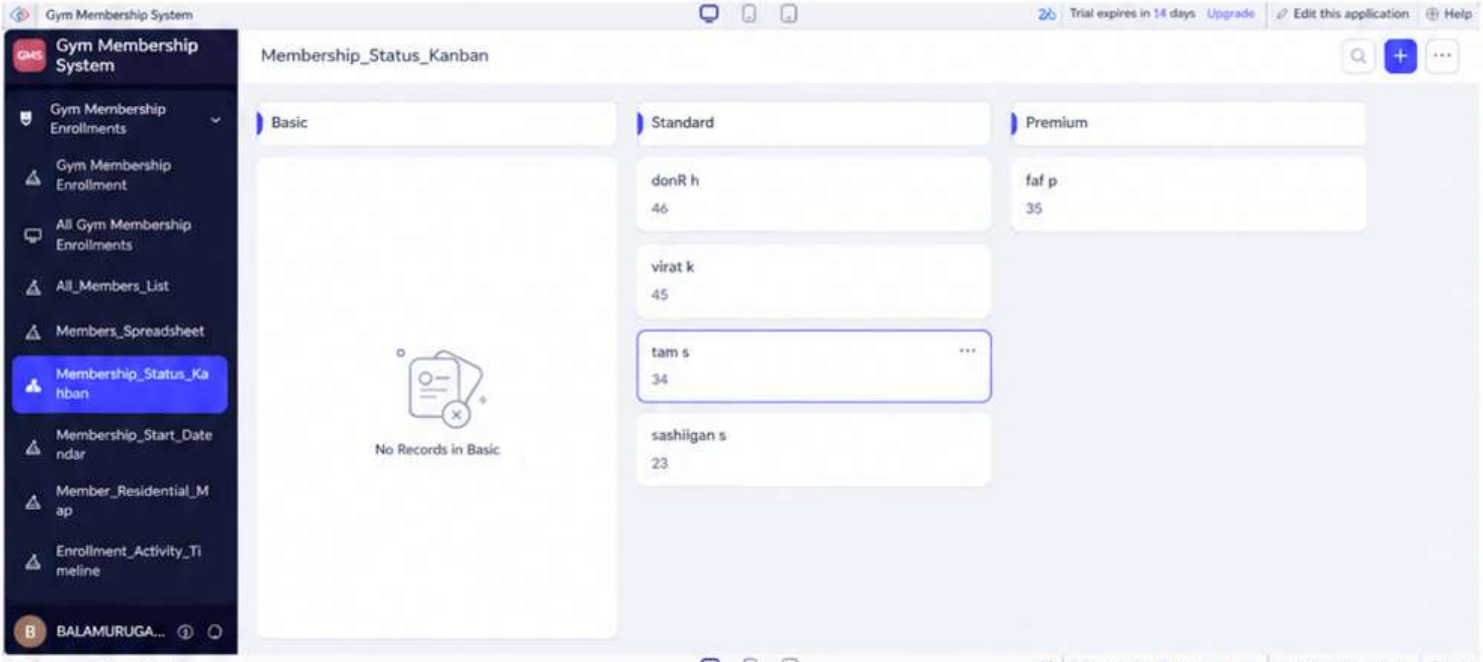

12. Test the reports using sample gym membership records and verify that the data is displayed correctly.

## RESULT:

Thus, different types of reports and visualizations were configured in Zoho Creator for the Gym Membership System. These reports help organize, analyze, and present membership information effectively for front-desk staff, trainers, and management.
